

Our 2022 Community Supported Agriculture Share (CSA) will start the last week of July and run until the last full week of October. This year we are excited to announce we are partnering with a local farm and will offer a homemade ice cream option included in your share. For an additional 60\$ you will receive a quart of ice cream every other week. We will still have three sizes available: a full share, half share, and the small share. Each share consists of various fruits and vegetables to fill a full, half, or quarter bushel basket. The price of a full is \$550, a half is \$439 and the small is \$239. CSA pick-ups will be made weekly on: Tuesday, Thursday, or Friday.

Below is a list of some of the fruits and vegetables you can expect to receive in your share during the summer and autumn months. Availability and amounts will be dependent on weather conditions and any other uncontrollable variables occurring during the growing season.

Broccoli	Carrots	Corn	Turnips	Summer Squash
Lettuce	Beans	Beets	Hot Peppers	Cherry Tomatoes
Zucchini	Onions	Kale	Tomatoes	Winter Squashes
Parsley	Apples	Potatoes	Cantaloupe	Grape Tomatoes
Cabbage	Garlic	Basil	Cucumbers	Swiss Chard
Spinach	Cilantro	Radishes	Watermelons	Sugar Pumpkins

Although we are not an organic farm, we follow Integrated Pest Management (IPM) practices. IPM is an environmental strategy focusing on prevention of pests using biological control, cultural practices, and resistant varieties. Pest control measures are applied selectively to minimize exposure to the environment. This way many of our vegetables are never treated throughout a growing season unless absolutely necessary.

By purchasing our farm share, not only will you be getting the freshest fruits and vegetables, but you will also be helping support your local economy and the environment by maintaining farmland and open space.
